

## MRSA AND *C DIFFICILE*: TWO PERSISTANT PATHOGENS

### APIC AND SHEA JOINT POSITION STATEMENT

- Legislative mandates for use of active surveillance cultures to screen for methicillin-resistant *Staphylococcus aureus* and vancomycin-resistant enterococci: Position statement from the Joint SHEA and APIC Task Force** 73  
 SG Weber, SS Huang, S Oriola, W Charles Huskins, GA Noskin, K Harriman, RN Olmsted, M Bonten, T Lundstrom, MW Climo, M-C Roghmann, CL Murphy, and TB Karchmer

### COMMENTARY

- Methicillin-resistant *Staphylococcus aureus*, *Clostridium difficile*, and extended-spectrum  $\beta$ -lactamase-producing *Escherichia coli* in the community: Assessing the problem and controlling the spread** 86  
 SF Bloomfield, B Cookson, F Falkiner, C Griffith, and V Cleary

### MAJOR ARTICLES

- Comparative of a new and innovative 2% chlorhexidine gluconate-impregnated cloth with 4% chlorhexidine gluconate as topical antiseptic for preparation of the skin prior to surgery** 89  
 CE Edmiston Jr, GR Seabrook, CP Johnson, DS Paulson, and CM Beausoleil
- How important is patient-to-patient transmission in extended-spectrum  $\beta$ -lactamase *Escherichia coli* acquisition** 97  
 AD Harris, M Kotetishvili, S Shurland, JA Johnson, JG Morris, LL Nemoy, and JK Johnson
- Morbidity and mortality of Staphylococcal bacteremia in children** 102  
 H Hakim, JM Mylotte, and H Faden
- Oral rifampin for eradication of *Staphylococcus aureus* carriage from healthy and sick populations: A systematic review of the evidence from comparative trials** 106  
 ME Falagas, IA Bliziotis, and KN Fragoulis
