Thank you

We would like to thank our Thesis Advisor of the Business School of Ilia state University.

Professor Mr. Nikoloz Makharashvili was always ready to help whenever the group had trouble or questions about research topic or writing.

He allowed us to work on our own and used our own opinions and ideas for the paper but gave us the right direction when we needed it.

We would also like to thank those who spread the word about the survey and participated in it. Without their interest and participation the survey would not be conducted successfully.

And also thank to TOYOTA Georgia staff who assisted in provision of required information and interview.
