

Habitats of Georgia

Tbilisi, 2012

Habitats of **Natura2000** in Georgia are developed in the framework of the project of GTZ

The work is done by:

Maia Akhalkatsi - Vegetation

David Tarkhnishvili - Animals

Text is based on literature data, the authors are indicated in each habitat description.

Notes:

1. Code of Georgian habitats is indicated as GE.
2. Priority habitats are indicated by star (*) on the code.
3. Palearctic classification code (PAL. CLASS.) is done after title of a habitat.
